

THE TEXAS POLICY VOICE FOR HEALTHCARE AND BIOSCIENCE

Public Policy Impacts on Patient Access to Innovations in Medicine

Patient Advocate Luncheon and Exhibit at the Texas Capitol

Texas Healthcare and Bioscience Institute (THBI) and our patient advocate partners invite you to learn how innovations in health care treatments and therapies impact the experience of patients facing life changing conditions and diseases, and how public policy can help or hinder access to these innovations.

You will have the opportunity to meet and network with patient advocate organizations, learn about the specific challenges impacting individuals and families facing those conditions and diseases, and then have lunch with us to learn more about how those challenges are affected by public policy decisions.

Thursday, September 29

Texas Capitol

Legislative Conference Center (E2.002)

11:00 am - 2:00 pm

Lunch will be provided.

RSVP to info@thbi.com.
