OUR MISSION

What We Do

Otsuka-people creating new products for better health worldwide

There is simply no end to the ways in which we can shape the future of healthcare. We believe that the bigger the challenge, the bigger the opportunity. We are doing everything in our power to live up to our mission of creating new products for better health worldwide in two important therapeutic categories: neuroscience and nephrology.

OUR PURPOSE

Why We Do It

Defy limitation,
so that others can too.

We have an unwavering belief in doing more. In going above and beyond—under any circumstances—for patients, families, providers, and for each other. It's this deep-rooted dedication that drives us to uncover answers to complex, underserved medical needs, so that patients can push past the limitations of their disease and achieve more than they thought was possible every day.

OUR CULTURE

What Unites Us

These are the core principles by which all Otsuka-people have lived for a century. They serve as the foundation of our culture, embodying who we are and how we achieve our goals.

実証
jissho
(JIS-SHOH) • ACTUALIZATION

ACHIEVEMENT, COMPLETION, AND THE DISCOVERY OF TRUTH

Otsuka-people are encouraged to push themselves far beyond expectations. To dream the impossible and make it a reality. By living the principles of jissho, individuals and teams can achieve unprecedented outcomes that ultimately lead to greater responsibility.

創造性
sozosei
(SOH-ZOH-SAY) • CREATIVITY

PURSuing WHAT ONLY OTSUKA IS CAPABLE OF CONCEIVING AND ACHIEVING

Sozosei gives Otsuka-people permission to do what's never been done and can only be done by Otsuka. Every day is a new chance to invent and to create so that we can provide answers to medical needs that have yet to be addressed.

OUR VALUES

What we believe in

PERSISTENCE

We persist to do what's right and what matters

UNCONVENTIONAL THINKING

We live to create and discover a better way

HUMILITY

We unite to serve the needs of others before our own
